DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12/09/2005 has been entered.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

3. Claims 21-40, 51, 52, 56 and 57 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The present invention provides a new apparatus, method and computer readable memory for efficiently compressing an image while maintaining high image quality (specification, page 2, lines 15-20). In particular, the new apparatus, method and computer readable memory comprise the following features, which the prior art, either taken singly or in combination, does not teach:

- conversion means/step for generating non-text multi-valued image data by converting multi-valued image data of the text portion using multi-valued image data of a portion other than the text portion; color palette generation means/step for generating at least one color palette as the representative color data by executing a color reduction process of a text image in the text area (see claims 21, 33, 51, 52, 56 and 57).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
